Please contact Nagoya Expressway Public Corporation for handling of tolls at Nagoya Expressway Tollgate (Sennonji).

Nagoya Expressway Route No.5

Nagoya-Nishi JCT

Sennonji IC

Note

- When using Nagoya Ring Road No.2 (Meinikan) and Higashi Meihan Expressway (distance toll section) consecutively, discounts are applied based on times passing the tollgates in each section individually.
- Please check our website, etc. when using the Shin Meishin Expressway from Tokyo, Shizuoka and Nagano to Osaka and Kyoto, as tolls can be higher when using Nagoya Ring Road No.2 (Meinikan/ Nagoya-Minami JCT to Nagoya-Nishi JCT and Nagoya IC) than the Isewangan Expressway.
- At exits of Nagoya Ring Road No.2 (Meinikan), ETC free flow antennae that communicate wirelessly with ETC are installed (there are no tollgates). At these exits always drive with the ETC card inserted in the in-vehicle equipment, as wireless communication is necessary to check routes.
